Profile Summary

Motivated and quick-learning student stepping into the professional world with a solid foundation in modern technology, strong problem-solving skills, and a mindset that balances traditional discipline with fresh, forward-looking ideas. Comfortable working in fast-paced environments, picking up new tools on the fly, and contributing with a “get things done” attitude. Known for being reliable, team-oriented, and adaptable — someone who doesn’t shy away from challenges and learns from every experience.

Projects

Modern React Login & Registration System

4 Days

Built a clean, responsive login—registration flow using React.js, React Hook Form, and component-based architecture. Implemented form validation, state management, reusable input components, and a structured project folder layout. Focused on clean UI, smooth interactions, and beginner-friendly code flow

Tech Used: React.js, React Hook Form, CSS/Tailwind, Jquery, SASS
